Course Name and Number: _____

Semester and Year Course will be Taught: _____

Amount Requested (\$1,500 Maximum): _____

If you are awarded a grant, when would you like the funds transferred to your
department? _____

See next page for additional questions.

Please answer the following questions on a separate sheet(s) of paper.

- 1) Briefly identify the educational goals of your course.
- 2) How will service-learning and/or community-based research help you achieve/enhance these goals?
- 3) What criteria and methods will you use to identify and select appropriate service sites and activities for your class?
- 4) What types of service activities will be undertaken by students enrolled in your class? If possible, please provide some specific examples.
- 5) Provide the number of service hours you will require your students to undertake over the course of the semester (list by hours/week or total number of hours).
- 6) What pedagogical tools will be utilized to ensure student learning in the community is connected to the academic content of the course (class lectures, required reading, library research, etc.)?
- 7) Please provide an estimated budget; include general categories of expenses along with their projected costs.
- 8) Are there additional resources and/or support that would help you develop and implement this course? If so, please identify.
